Mr. Arie Taitler
Emerging Markets Project Facilitators Group (EMPG)
Coordinator/Managing Director
Actiview Solutions Ltd.
Rue du Moyer 35, 1000 Brussels, Belgium

Through:
Mr. Benedict Philip Yayock,
The Chief Executive Officer,
Greensun Energy International Nigeria Ltd.
Melita Plaza, Garki 2, Abuja, Nigeria

LETTER OF INTENT/INTEREST (LOI)

I wish to refer to your letter on the above subject, received by the Raw Materials Research and Development Council (RMRDC), which is a parastatal under Nigeria's Federal Ministry of Science, Technology and Innovation (FMSTI) through your Nigerian representative, Mr Benedict Philip Yayock, of Greensun Energy International Limited. You have requested for a letter of intent (LOI) from the Federal Government of Nigeria, conveying its willingness to partner with the Emerging Markets Project Facilitators Group (EMPG), Brussels, Belgium, in establishing pilot projects at the Federal and State levels, under the framework of the new investment model for Africa.

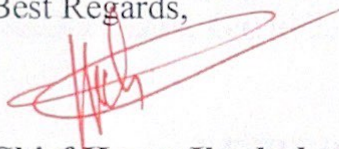

Nigeria had launched a comprehensive Industrial Revolution Plan (NIRP) to accelerate investments in strategic sectors of the economy and increase

industry sector contribution to GDP, create employment and assist in enhancing areas Nigeria has comparative advantage. This Plan is being implemented through Private Public Partnerships (PPP) to build sectors with specific value chains and actions, in the different Geo-Political Zones. Your request to partner with Nigeria to establish pilot projects in selected top priorities areas in the crucial agriculture and mineral sectors at various locations within the country is timely, to help Nigeria realize its developmental goals.

We wish to thank you for considering Raw Materials Research and Development Council (RMRDC) and the Federal Ministry of Science, Technology and Innovations as a viable beneficiary of the investment group's programs.

I therefore wish to convey the interest of the Federal Government of Nigeria to partner with the Emerging Markets Project Facilitators Group (EMPPFG), Brussels, Belgium, through its agency RMRDC to adopt the New Investment Model for Africa in Nigeria for the establishment of the pilot projects. We are also prepared to meet with the top management of EMPPFG investment group and EU Officials in Belgium or Nigeria to reach a mutual understanding for this project implementation in Nigeria.

Best Regards,

Chief Henry Ikechukwu Ikoh
The Honourable Minister of State
Federal Ministry of Science, Technology and Innovation
